About Us

Working for a noble cause, we Lexicare Pharma Pvt. Ltd., are here to serve our esteemed clients with safe and reliable medical products. Grown as an eminent manufacturer, supplier and exporter of various Pharmaceutical medicines, we have got world wide recognition. Our products in different categories such as Antibiotic, Antimalarial, pharmaceutical Antimalarial Drugs, Anticancer Medicine, Antibiotic Medicines, Anticancer, Multi Vitamines, Cardiac-Diabetic, Psychiatric & Veterinary Products etc are produced under the strict guidelines of international quality standards which makes them absolutely pure and safe to consume for desired results.

Based in Ankleshwar, Gujarat, India, Lexicare Pharma Pvt. Ltd. is a prominent third party manufacturer/label manufacturer and exporter of Veterinary, Ayurvedic, Nutraceutical and Pharmaceutical products, like Alpha Lipoic Acid Softgel Capsules, Ginseng Softgel Capsules, Growth hormones, Anticancer, Injections, Snake venom, I.V. Fluids and other allied products. Upon the receipt of purchase order, the professionals prepare pro-forma invoice, commercial invoice and start the production of requested products. In partnership with a freight forwarding agency, the company supplies the products to respective country. The professionals also prepare custom clearance documents, which are submitted for clearance and shipping of products. With sound experience and practical knowledge, the professionals carry business activities in a profound way. The ethical business policies are based on clear principles of transparency which gives enough space for the clients to deal with the company without any kind of trouble. Overall, the professionals never fail to deliver quality medical products to clients, meeting all their requirements. It's been more than a decade that Lexicare Pharma Pvt. Ltd. has been catering the Pharmaceutical and Nutraceutical products demand of overseas clients. The company is currently supplying these products in more than 15 countries. The professionals in-house have formalized every aspect of exporting, from shipping method, delivery terms to payment mode. They combine their expertise, knowledge and technology to produce a range of Dietary supplements, Growth hormones, Anticancer, Injections, Snake venom, I.V. Fluids, Antimalarial and Antibiotics while maintaining high standards.
